KVELL COLLEGE OF EMERGING SCIENCES

M.Sc. in Food and Nutrition Technology

M.Sc. in Food and Nutrition Technology is a two-year postgraduate program designed to provide advanced knowledge in food science, nutrition, food processing, quality assurance, and public health. The program equips students with the scientific, technical, and analytical skills required to develop nutritious, safe, and sustainable food products while promoting health and wellness through balanced nutrition.

The curriculum combines food chemistry, microbiology, human nutrition, food processing technology, food safety, quality control, nutraceuticals, clinical nutrition, and research methodology. Students gain practical experience through laboratory training, food product development, industrial internships, research projects, and exposure to modern food processing and analytical technologies
